Frame Marquees & Structures

Our range of Marquees and Structures is available in various sizes to accommodate your chosen site. They can be complemented by our Oriental Canopies and Covered Walkways, all of which can be tailored to your own specification.

Lighting

We are able to supply Chandeliers and Walllights for a general lighting effect, Uplighters and Pin Spots are also available. If you have your own lighting specialist, we will gladly work in conjunction with them to fulfil your expectations.

Weddings and Private Parties

We can advise on every aspect concerning your special event from the marquee size, siting and potential layout ideas. We take particular notice of special requests you may have so that your special day can be a day to remember!

Interior Linings

The lining is the major accessory for transforming a basic marquee to your chosen theme, available in a variety of styles such as plain, pleated or starlight roof in order to create the atmosphere that your event demands.

Ancillary Equipment

Our marquees can be specified with a wide range of additional equipment including Glazed Double Doors, Entrance Porches, Furniture, Heating and Ventilation, Toilet Units, Parquet Dance Floors and Staging. Whatever you require we can achieve the desired effect.

Corporate Functions and Exhibitions

The right impression has to be created for an important business event or product launch. The complete planning of your event or simply the provision of emergency cover will be undertaken with total control and professionalism.

Flooring

We offer Coconut Matting or Wooden Floors to suit your chosen site and event. Wooden Flooring with Carpet is ideal for events that may be sited on uneven ground. We also recommend having a Wooden Floor during the winter months.

Functions Accommodated

We are able to supply equipment to suit individual requirements with the minimum of time and fuss. Awkward locations need not be a problem having previously installed marquees over swimming pools, on flat roofs, even incorporating flower beds and rockeries where necessary.

Storage, Warehousing & Showrooms

We are now able to offer a comprehensive range of structures that can be utilised as storage or warehousing facilities. Whether your requirements are short or long-term, we will be pleased to meet and discuss your options.
